About me

Currently studying Software Engineering at Universidad de Sevilla. I have only worked in non related to tech jobs, such as lifeguard. Also have being working the land what has helped me develop a strong work ethic. Now, I would love to join a tech-related company where I can put into practise what I know, but mainly learn and master new useful skills. I may not have the best technical skills, but I am dying with enthusiasm and am determined to do my best and be up to the mark.

TECHNICAL SKILLS: Java | Python | HTML/CSS/Javascript | SQL | UML | Bash | Wireshark

Experience

Winner - Hunger4Innovation 7th Edition

Remote

HUNGER4INNOVATION & TÉCNICAS REUNIDAS

Feb. 2022

- Had 24 hours to work in a solution to a problem presented by Técnicas Reunidas in a team with 4 students I didn't know before.
- In addition, each member was in a different city and worked remotely
- Our solution won, and collaborated with TR for the following 3 months developing the idea and adapting it to the circumstances of the company.

WANTED 6th Edition

Sevilla, España

UNIVERSIDAD DE SEVILLA & ESPACIO RES

Nov. 2021

- One of the 30 selected students among Universidad de Sevilla that took part in the workshop on entrepreneurship.
- Best things I learnt:
 - How to do a perfect slideshow and give an effective presentation.
 - How to create a good prototype and a useful MVP.

Volunteering

UEFA Europa League

Sevilla, España

ACCREDITATIONS

May 2022

- Took part in welcoming applicants in the accreditation centres, searching UEFA's database for accreditation requests, taking pictures of the applicants for the accreditation passes, printing the passes and delivering them to the applicants.
- Best things I learnt:
 - How a big event such as UEL FINAL is organized and managed succesfully.
 - Ability to handle customers, cooperate with police.

Work Experience

Lifeguard

Sevilla, España

LEXPOL S.L

2019-2021

- First summer entered as a substitute, next one I was responsible for a private swimming pool.
